- Ideal for hotels, food caterers and restaurants.
- With bulk packing in a drum with lid cover, it is possible to use the same drum until its content finish.
- Store in a cool and dry place away from direct sunlight.

PACKING DETAILS

Heating Wax comes in 3kg drum.
A carton contains 6 drums.

BURNING TIME

The burning time depends on the amount of Wax used. The temperature depends on the container opening and air flow.

HOW TO USE

Open the drum lid cover. Use a ladder to scoop the amount of Wax required into the container. Place the container directly below a chafing dish. If any spillage, make sure to wash it away and clean it with a dry cloth. Then light the Wax in the container using a long reach lighter or matchstick. To avoid oxidation, cover back the drum with the lid cover and keep the drum airtight.

CAUTION:

Heating Wax is flammable and hazardous. It can cause irritant to skin. Always wash hands thoroughly after skin contact with the Wax. A Material Safety Data Sheet (MSDS) is available on request.
